

NOTE: Cantor eDeck was a product and service branded by Cantor Gaming, which is now CG Technology. As brand names change and applications, software, hardware and system versions are upgraded or evolved, our client strongly believes the patented technology as illustrated in these charts are still the foundation for the current products and services offered by CG Technology (f/k/a/ Cantor Gaming) www.cgtglobal.com.

“CG Technology™, formerly known as Cantor Gaming, is a preeminent technology company providing innovative technological products serving the worldwide gaming industry. CG Technology provides private networks, systems, operations, management services, system licensing, and hardware and software design and development. In addition, CG Technology develops casino games with web hosting platforms for casinos. As the first company licensed by the Nevada Gaming Commission to manufacture, distribute and operate a mobile gaming system in the state, it is also a leader in providing mobile gaming technology for casino-style games, and mobile sports wagering technology in the state of Nevada and internationally, via Android™ and Apple® compatible applications, as well as comprehensive account-based systems for race and sports books.

Outside of the U.S., CG Technology has licensed its sophisticated mobile gaming and race book and sports pool systems, as well as risk management consulting services, to Atlantis, Paradise Island in the Bahamas. In addition, CG Technology has an agreement with Celebrity Cruises to offer its innovative mobile gaming technology on a selection of high-end Celebrity Cruises ships, marking the first time the cruise industry has offered customers a mobile casino gaming application. CG Technology is passionate about applying best-in-class technology to offer customers a unique, innovative and memorable gaming experience.
